Terms & Conditions

- Goods will remain the property of C. J. Sheeran Limited until payment is received in full.
- Balance payable immediately upon delivery.
- Adequate site access is required, and eight 4" blocks must be available on level ground.
- Same day delivery and erection only.
- If unable to accept delivery on a previously agreed date, notification must be given at least 48 hours in advance

Our pressure treated timber has been impregnated with Tanalith E, a waterborne product based on copper triazole technology. This treatment is usually where there is a risk of decay or insect attack. Tanalith E is:-

- an established proven alternative to traditional preservatives containing chrome and is far superior than dipped treatments.
- effective long-term protection against fungal and insect attack
- appealing natural green colour with excellent colour durability - blends perfectly with nature
- impregnated using vacuum pressure technology
- Ideal for general construction, fencing, sheds, garden and leisure timbers.
